Professional Summery

Full Stack Developer specializing in MERN and eCommerce solutions. Expert in creating dynamic applications with React.js, Next.js, Node.js, and MongoDB. Adept at implementing WordPress and Shopify integrations using Agile practices.

Key Skills

- **Frontend** : HTML5, CSS3, JavaScript , React.js, Next.js, Tailwind CSS
- **Backend** : Node.js, Express.js, Core Java, API Integration
- **Databases** : MongoDB, MySQL
- **Tools** : WordPress, WooCommerce, Shopify, Git, Postman, Docker, Jenkins

Professional Experience

Full Stack Developer

Devwemo Technologies Private Limited, Coimbatore (Feb 2024 - Dec 2024)

- Developed and launched live projects using the MERN stack to deliver dynamic eCommerce platforms and business websites.
- Designed and implemented responsive, mobile-friendly user interfaces using Next.js and Tailwind CSS.
- Built secure backend services with Node.js, Express.js, and MongoDB to ensure efficient data management.
- Integrated RESTful APIs for seamless communication between frontend and backend systems.
- Collaborated with cross-functional teams in an Agile environment to meet client requirements and deadlines.
- Maintained code quality with Git version control and continuous integration tools like Jenkins and Docker.
- Provided post-deployment support and troubleshooting to ensure high-performance applications.

Certified MERN Stack Internship

Vebbox Software Solutions, Kumbakonam (June 2023 - Jan 2024)

- Developed hands-on projects using React.js, Node.js, Express.js, and MongoDB, strengthening logical thinking and problem-solving skills.
- Designed and implemented responsive web interfaces that adapt seamlessly across various devices, emphasizing best practices in responsive development.

Projects

- **Devwemo, Dabevents, Ulavu Naturals, E-commerce Platform**
- Worked on four real-time projects, including the design and development of responsive, optimized WordPress/ WooCommerce-based websites that enhance user experience. Additionally, engineered a full-stack e-commerce platform using React.js, Node.js/Express.js, and MongoDB to deliver dynamic UI/UX and efficient data management.
